

By Tredrick on the Mongoose forums for Babylon 5: A Call to Arms

I took a look at the fleet boxes to see which ones were the best deals and which ones gave you a full 5 point fleet at each priority level.

I really hope someone finds this useful.

Definitions:

Cost of minis: How much the minis would cost if bought separately from Mongoose.

5 Point War? Can the fleet box make a 5 point War fleet.

5 Point Raid? Can the fleet box make a 5 point Raid fleet.

Raid Options: Different ways to make a Raid fleet from the minis in the box. If I miss an option, feel free to post your method, and I will add it.

5 Point Patrol? Can the fleet box make a 5 point Patrol fleet.

Enough fighters? Can the box fill the hangars of the minis.

REINFORCEMENTS:

EA Reinforcements:

Cost of minis: \$69.55

5 point War with main fleet? Yes, but . . .

5 Point Raid? Yes

Raid Options:

1- 1 Avenger, 2 Oracle, 2 Olympus

The addition of the Oracle and Olympus gives us 2 more points getting to a War fleet (the main box needed 1 more Raid and 2 more Skirmish level ships.) The 2 Hermes leaves the Patrol level 2 ships short of the six needed to fill a War level slot. We can use the 8 Starfuries from the main box to make a full fleet, but we are left far short of the required fighters to fill the hangars then.

Minbari Reinforcements:
